Write –Up: Environment Promotion Beyond the campus (Word Environment Day)

DATE: 5th June 2022.

On this occasion of Word Environment Day Director Dr. Dhanawade address the students the need of Environment Promotion. Dr. Sunil further explains some of the ways to practice environmental awareness include: using safe and non-toxic building supplies, conserving energy and water, recycling, activism, and others.

He further added how will students Promote environmental conservation by Recycle, More Often Recycling is a simple, yet effective way of conserving resources and reducing your individual carbon footprint. Rather than throwing everything in the trash, separate your plastic, paper, and metal waste, and deposit it in a recycling bin.

At the end of the Environment Promotion activities Director explain variety of environmental topics, including reducing waste, reducing toxicity and hazardous waste, air, energy conservation and climate change, protecting land and water, and reducing food waste.

Faculty member's non teaching staff and students from DYPCMR are present on the occasion of Environment Promotion activities beyond the campus.

On this day DYPCMR organized Environment Promotion Beyond the campus. At the First student carry tractor and trolley to collect garbage and wastage from roads and also from few nearby societies. Peoples and society Members appreciate the students and faculty members for their Environment

Promotion. After that student do plantation on barren land outside campus. These initiatives keep the environment clean and maintain the life's support.

Swatch Bharat Abhiyan

Write -Up

Date: - 27th Jan.2022

Timing: - 9.30 am

Swatch Bharat Abhiyan activity always held on 2nd Oct. on occasion of "Gandhi Jayanti". Due to the covid situation, this year we not able to organized on 2nd Oct., so on 15th Jan 2022 we celebrate the Swatch Bharat Abhiyan.

The students Role in Swachh Bharat Abhiyan is said to be vital in turning India clean and green as they are the emerging crops of nation. Being said that, they are the brand ambassadors of this noble cause. In terms of designing for student involvement, DYPCMR belives this could be attainable by making students understand the importance of this mission and actively participate in cleaning their own space first. Students have to recognize that swachta begins at one's home, Institute and surroundings therefore DYPCMR students first cleaned their vicinity. promoting the use of dustbins always in the institute.

Students also visited near by chikhali village a rural area and brought out the importance of mission and encouraged them in contributing to it. They explained the consequences involved from spitting, peeing and littering in public and how it effects the mission's goal as a whole. Students made them understand the practice of segregation of wastes into dry and wet i.e. they can keep vegetables and fruits waste as wet and plastic wastes as dry by keeping two separate bins. In rural areas, Students should spread awareness of using Toilets.

As more and more students come together and create awareness, the mission's aim reach every locality and home as well as transform our country as a whole. Students have to understand that they can make changes and they are the ones that make huge difference and should keep on going with the mission. The Institute also played major role in infusing students about hygiene and sanitation facilities and encouraging them to keep every nook and corner of their surroundings pollutant free.

DYPCMR understands that the students role in Swachh Bharat Abhiyan is essential to make this campaign successful one as it aims at bringing out behavioral changes in public and encouraging health practices, spreading awareness and strengthening the cleanliness systems. clean India also brings about change in regard to investments by foreign country leading to economic development of our country and its growth. Also bringing variety of sources of employment, reducing death rates and health costs and many more.

We at DYPCMR took a pledge together that we will contribute our bit in making India clean and green which shall lead to our country being respected in the overall world.

Write –Up: “Tree Plantation Program”

DATE: 25th Feb 2022.

According to the environmental protection agencies, planting trees is a must if we want to save our planet. Trees not only remove harmful chemicals from the soil, but also help reduce the greenhouses leading to global warming. In Indian culture the trees have been worshipped since the Vedic era. This was the time when human and nature were in synchronization with each other, no one harming one another, Tree planting is the process of transplanting tree seedlings, generally for forestry, land reclamation, or landscaping purposes, It differs from the transplantation of larger trees in arboriculture, and from the lower cost but slower and less reliable distribution of tree seeds.

However with the changing times human greed has taken over its greed and now environment is showing its wrath all over the globe manifesting itself in the form of global warming, floods, drought, earthquakes etc.

With an impetus to carry forward its services for the betterment of the society, DYPCMR organized Tree Plantation Drive with 40 saplings on 17th April the faculty members and students planted many trees to keep the environment clean and maintain the life's-support systems of the planet Earth.
