

Implementation of Startup Policy

1. Introduction

The Startup Policy has been implemented in the institution with the objective of promoting innovation, entrepreneurship, and self-employment among students. The policy aims to encourage students to convert their innovative ideas into viable business models and startups.

2. Objectives of the Startup Policy

- The main objectives of implementing the Startup Policy are:
- To develop entrepreneurial skills among students
- To encourage innovation and problem-solving mindset
- To support student-led startups and business ideas
- To create awareness about startup ecosystem, funding, and incubation

3. Implementation at Institute Level

The institution has taken various initiatives for effective implementation of the Startup Policy, such as:

- Creating awareness among students about startup and entrepreneurship opportunities
- Motivating students to participate in startup-related programs, ideathons, hackathons, and innovation challenges
- Encouraging students to identify local and societal problems and propose innovative solutions
- Supporting interdisciplinary projects and startup ideas

4. Activities Conducted

- Orientation sessions and awareness programs on startups and entrepreneurship
- Guidance provided by faculty members for idea generation and project development
- Encouragement to participate in National and International competitions related to startups and innovation
- Promotion of teamwork and collaborative projects among students

5. Support System

The institution provides necessary support to students by:

- Faculty mentoring and guidance
- Providing infrastructure and academic support
- Guiding students about government startup schemes and funding opportunities
- Encouraging linkages with incubation centres and industry experts

6. Outcomes

- Increased awareness about startups and entrepreneurship among students
- Active participation of students in innovation-based activities
- Development of creative thinking and leadership qualities
- Motivation among students to pursue self-employment and startup ventures

7. Conclusion

The implementation of the Startup Policy has created a positive entrepreneurial environment in the institution. It has helped students to think innovatively, develop practical skills, and explore startup opportunities. The institution remains committed to strengthening startup culture and supporting aspiring entrepreneurs.
