CERTIFICATE

Waste Management and Environmental Improvement Measures for a Sustainable Green Campus

This is to certify that I have examined and assessed the waste management systems and environmental improvement measures implemented at:

Name of Institution: Shikshan Maharshi Dr. D. Y. Patil Centre for Management and Research

Location: Gat No. 1029, 1030 & 1031, Newale Wasti, Chikhali, Pune – 412062

Based on site inspection and verification of available records, it is observed that the institution has implemented appropriate measures to ensure effective waste management and to promote a sustainable Green Campus, which include the following:

Solid Waste Management:

Segregation of waste at source, provision of color-coded bins, composting of biodegradable waste, and authorized disposal of recyclable waste.

Liquid Waste Management:

Proper collection and treatment of wastewater through a sewage treatment system, with reuse of treated water for landscaping and non-potable purposes.

E-Waste Management:

Collection, storage, and disposal of electronic waste through authorized recyclers in accordance with applicable regulations.

Environmental Improvement Measures:

Development and maintenance of green cover, energy-efficient lighting systems, water conservation practices including rainwater harvesting, and adoption of eco-friendly practices across the campus.

Pollution Control Measures:

Noise and air pollution control measures, including acoustic enclosures for diesel generator sets as per CPCB norms.

Based on the above, it is certified that the institution has taken adequate and effective steps towards environmental protection, waste minimization, and sustainability, thereby contributing to the development and maintenance of a Green Campus.

COMMISSIONING & INSTALLATION CERTIFICATE

This is to certify that Compost Hut as per the details given has been installed, commissioned and tested successfully by **BHUYANTA WASTE MANAGEMENT PVT LTD** on _____ at **Dr.D.Y.Patil Centre For Management and Research (MBA)**
Gate No- 1029, 1030, 1031, Behind Gharkhul, Newale Wasti, Chikhali, Pimpri-Chinchwad, Pune-411062.

System Details:

SN	Details	Comment
1.	Three Phase, 2 HP motor powered Shredder with Mild Steel blades.	Single phase
2.	Compost Hut - Mini Bin	1 unit

It is certified that:

1. The system has been installed and tested by commissioning officer at the client place.
2. The installed systems is fully and satisfactorily working.
3. Working of product has been completely understood by client representative.

- Installation of OWC shall be started only after all payments/dues against supply have been cleared by the Purchaser/user.
- trial run/commissioning shall start only after payments/dues against Installation have been made to Bhuyantra.
- Bhuyantra shall issue work completion and handover certificate & thereby transfer complete ownership of the OWC after claiming the final installment of the PO price.
- purchaser/user is expected to put the equipment to commercial use only after Bhuyantra has issued a formal completion certificate.
- purchaser/user shall not make a formal declaration of installation & operation of OWC in its premises unless it obtains a completion certificate & has taken handover of the OWC.

DELAYS IN COMPLETION: If completion of work is delayed beyond the contractual date for reasons under purchaser/user's control as listed out hereunder and above but not limited to them, Bhuyantra shall be entitled to suitable readjustment in the period of completion, by mutual consent and the contract will stand amended to that extent.

- delay in,
 - completion of civil works or in handing over site free of hindrances and as per the specifications.
 - hold up of work due to the client's specific instructions or lack of the same.
 - release of advance or due payments beyond 7 days from the due date.
 - delay due to power supply problems.

FORCE MAJEURE CLAUSE: where the parties are unable to fulfill the conditions of the contract, partially or fully due to force majeure condition

(like acts of God – earthquakes, floods, storms, etc., acts of states - direct or indirect consequences of wars (declared or undeclared), hostilities, national emergencies, civil strikes, etc.), the parties shall not be held responsible for the same.

CONTRACT TERM: From the date of PO & shall be valid until the commissioning/handover of the OWC, which shall not be more than 90 days.

WARRANTIES: Bhuyantra warrants that the duties shall be discharged in a professional and competent manner. The equipment shall be guaranteed against manufacturing defects for a period of 12 months from the date of commissioning or 18 months from the date of dispatch, whichever is earlier. We shall repair/replace, free of cost, any defective component during the said period.

This warranty does not cover the following:

- loss of the product or its parts.
- failure or damage resulting from misuse, abuse, accident, modification, unsuitable physical or operating environment, natural disasters, power surges, improper maintenance, or use not in accordance with product information materials. Such improper use includes (but not limited to) putting non-biodegradable wastes such as all kinds of plastic bags, paper, covers, and metals.
- damage caused by a non-authorized service provider
- failure of, or damage caused by any third party products.
- alteration of the product or product labels and removal of affixed identification labels.

Compost Hut

Compost Hut is a bio-mechanical aerobic organic waste composter. It works on our patented technology which makes it one of the most efficient and natural aerobic composter.

- Odour free daily composting
- Minimum electricity use - Just 2 KW/Day
- Input Capacity - 100 Kg/Day, 1500 Kg Total
- Output Capacity - 30 Kg/Day (approx)
- Space Required - 2 Square Meters
- Made with Steel and Industrial Grade HDPE
- Inbuilt leachate collection

Mini-Bin

Mini-Bin works on Compost Hut industrial technology for smaller requirements for 20 kilogram of input waste daily.

- Odour free daily composting
- No electricity use
- Input Capacity - 20 Kg/Day
- Space Required - 2 Square feet.
- Made with Steel and Industrial Grade HDPE
- Inbuilt leachate collection

Home Bin

Home Bin is a Kitchen Waste Composting system working on industrial aerobic composting system.

- Simplest Composting System in Market
- 100 % aerobic and smell free composting.
- Zero Electricity Use
- Daily Composting System
- Space Required - Just 1 Square feet
- Made with Steel and Industrial Grade HDPE

Put Your Kitchen Waste Through Feed Door Daily (Up to 2 Kg/Day)

Take Out Compost Daily

Katran

Katran is range of shredders/choppers/pulverizer suitable for different application. Made with efficient engineering these shredders can handle range of input and applications. Proudly designed and manufactured in India.

KATRAN - OWC

Katran - OWC is for shredding organic waste. Unmatched performance and thoughtful design makes it most suitable to go along with any composting/bio-gas system.

- Capacity of 100 KG/hour to 1000 KG/hour
- Space Required - 1 Square Meters
- Comes with Stainless Steel/Coated Mild Steel blades
- Ergonomically designed, easy to move
- Less vibration and silent working Design
- Easy to clean and maintain

KATRAN - rePlast

Katran - rePlast is designed for plastic and bio-medical waste.

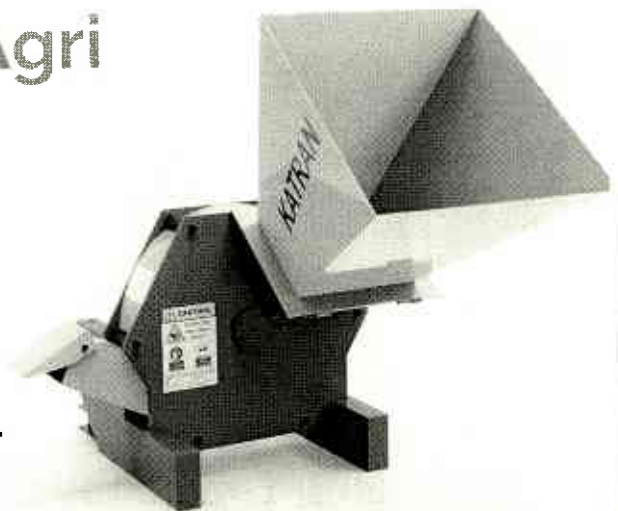

- Capacity of 100 KG/hour to 1000 KG/hour
- Space Required - 1 Square Meters
- Comes with Stainless Steel/Coated Mild Steel blades
- Ergonomically designed, easy to move
- Less vibration and silent working Design
- Easy to clean and maintain

KATRAN - Agri

Katran - Agri is designed to handle garden and Agricultural waste with ease.

- Comes in two different size. Small for 3 HP Motor, Large for 5/7.5 HP Motor.
- Ergonomically designed, easy to move
- Easy to clean and maintain
- Can handle coconut and thick branches with ease.

Product Technical Sheet

<i>Product Name</i>	<i>Compost Hut</i>
<i>Product Model No</i>	BY100KGD
<i>Manufacturer</i>	Bhuyantra Waste Management Pvt Ltd

Introduction:

CompostHut™ OWC is a bio mimicked and engineered solution to produce rich brown, fully digested, ready to use, earthy smell compost daily. The system comprises of three components:

1. bioBAC + bioFEED (Accelerator)
2. Katran (Shredding Machine)
3. CompostHut™ (Bio digestor)

Incoming waste mixed with Biofeed (Composting Mechanisms) goes through the shredder, where in the first step of size reduction and homogenization takes place. This homogenized waste is then distributed in to CompostHut™ Bio Bins. Daily harvesting of compost is due to the buffered digestion.

Process:

Eating begins with chewing our food - our teeth help cut, grind and mash food into smaller particle sizes. This chewed food is swallowed – enzymes, chemicals and microbes digest the food in our stomach and gut, waste material is passed out in the toilet. CompostHut™ works the same way – a shredder reduces particle size for faster digestion, our bacterial culture digests the material inside and rich, fully digested compost can be removed from the bottom of the Compost Hut. Our system mimics nature and thus is a form of biomimicry.

Type of Waste Compost Hut Can Process:

Can Be Used:

Vegetables, Vegetable Waste, Fruits and Fruit skins, Cooked or uncooked meat, Bones /egg shells, Bread / Bakery items, all cooked food waste, Coconut shells, Street- sweeping leaves, Leaves and tree branches, Flowers, Temple Waste

Cannot be Used:

Pharmaceuticals, Cosmetics, Glass, Metal, Newspapers and Magazines, Plastic Bags and Bottles, Sanitary pads/ Nappies

Generic Parameter:	
Input type	Mix Organic Waste
Reprocessing capacity (TPD)	0.1
Process	Continuous
Length of machine (cm)	110
Width of machine (cm)	115
Height of machine (cm)	115
Operation hours per day (hours)	0.5
No harmful Emission	Yes
No Burning and Chemical use	Yes
Noise level during operation (db(A))	25
Weight of machine (Kg)	160

Build Quality:	
Bin Base Build Material	Anti-Corrosive High-quality Steel Alloy
Bin Build Material	HDPE with Stainless Steel Mesh
Shredder Body Build Material	Powder Coated Mild Steel
Blade and Shaft Build Material	Zinc Coated Steel

Motor Details:	
Motor Power	2 HP
Motor Warranty	Company Covered Warranty
Electricity Requirement	3 Phase
Operation Panel	High-quality anti surge panel with led lights

Constructional Parameters:	
Output (Organic fuel Stick) (TPD)	0
Output (Solid Organic Manure) (TPD)	0.03 (30% of input)
Output (Liquid Organic Compost) (LPD)	5
Power consumption (Watts)	1400
Output (Organic raw Material) (TPD)	0

Performance Parameters:	
Machine Warranty (Years)	1

6	Total Organic carbon (%) by weight, minimum	14	16.2
7	Total Nitrogen (as N) % by weight, minimum	0.5	0.85
8	Total Phosphorous (as P_2O_5) % by weight, minimum	0.5	4.2
9	Total Potash (as K_2O) % by weight minimum	0.5	0.82
10	C:N ratio	<20	19.01
11	Bulk density maximum	<1	0.68
12	Particle size after passing through 4mm IS sieve min	Not less than 90%	98%
13	a) Iron (mg/kg)	-	325.7
	b) Manganese (mg/kg)	-	78.5
	c) Copper (mg/kg), Max	300	12.4
	d) Zinc (mg/kg), Max	1000	26.4
	e) Lead (mg/kg), Max	100	2.4
	f) Cadmium (mg/kg), Max	5	0.25
	g) Chromium (mg/kg), Max	50	0
	h) Nickel (mg/kg), Max	50	2.8
	i) Calcium (Ca)% by weight	-	1.85
	j) Magnesium (Mg)% by weight	-	0.5

Note: pH is low
