

Encourage Students to Participate in National / International Competitions like SIH, IDEATHON, etc.

Dr. D. Y. Patil Centre for Management and Research (DYPCMR), Chikhali, Pune Integrated Campus consistently encourages students to participate in national and international level competitions such as Smart India Hackathon (SIH), IDEATHON, and similar innovation-based events. These competitions play a significant role in motivating students to perform, excel, and gain exposure beyond classroom learning.

The institute provides continuous academic and mentoring support to students for effective participation in such competitions. Faculty members guide students in problem identification, idea generation, project development, and presentation skills. Regular brainstorming sessions, internal idea competitions, and review meetings are conducted to prepare students at the institutional level.

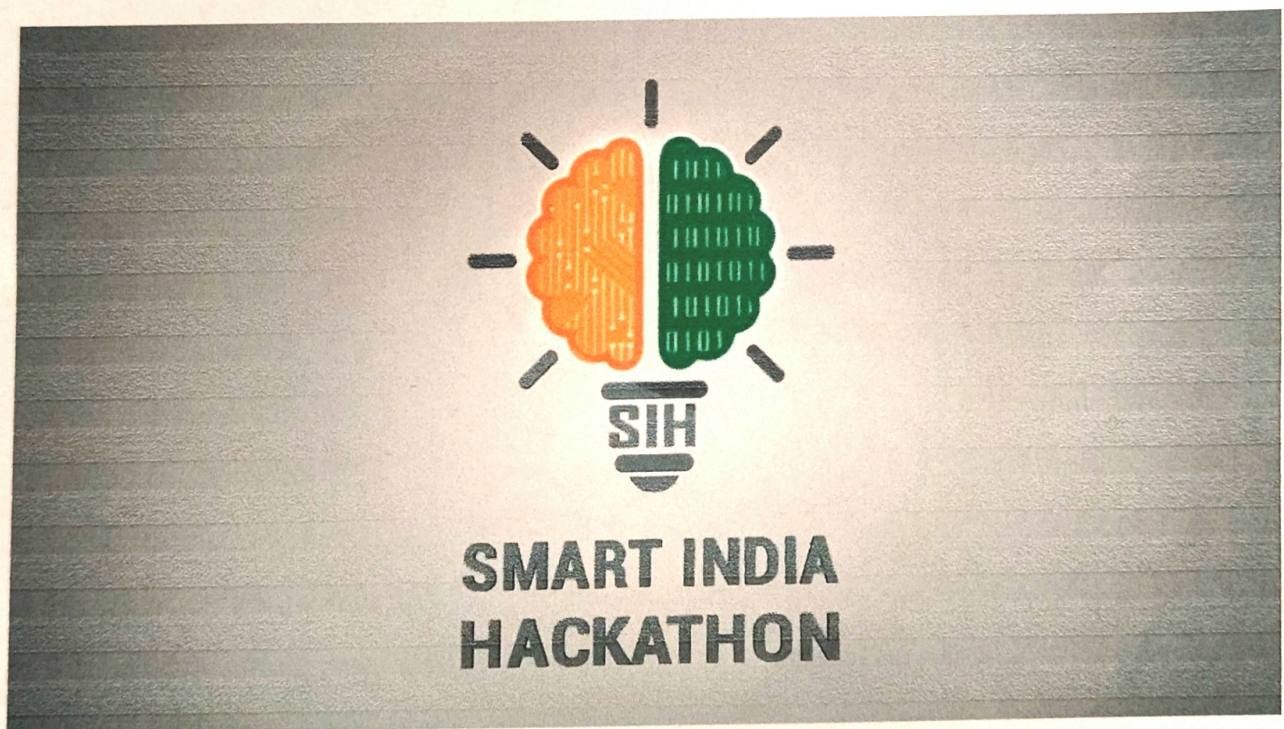

The institute also facilitates access to necessary infrastructure, digital resources, and collaborative learning environments. Students are encouraged to work in multidisciplinary teams, which helps in developing leadership qualities, teamwork, and communication skills.

Participation in national and international competitions like SIH and IDEATHON enables students to gain real-world exposure, showcase their innovative ideas, and receive valuable feedback from experienced jury members. Such initiatives contribute to the overall personality development, employability, and entrepreneurial skills of the students.
